

DWA_03.5 Knowledge

Check_DWA3.2

1. User story(ies) in Gherkin syntax for the “+” button.

Feature: Tally App

Scenario: User increments the count in the Tally app and stops at a maximum value

Given the user opens the Tally app

And the app has a maximum count value of 10

When the user starts a new count

And increments the count multiple times, reaching the maximum value

Then the app should display the total incremented count of items,
capped at the maximum value

2. User story(ies) in Gherkin syntax for the “-” button.

Feature: Tally App

Scenario: User decrements the count in the Tally app

Given the user opens the Tally app

And the user has an existing count of 5

When the user decrements the count multiple times

Then the app should display the total decremented count of items
